

Hi, I am Parthiv Patel

About Me

Hello World,

Currently I am Working in Tata Consultancy Services as an Associate System Engineer. I have completed Computer Science and Engineering degree from Gujarat Technological University.

I grew up in Surat city which is located in Gujarat. I completed my schooling from local high school. I learn lot of things during school journey. As a student I was so curious about computers and technology. So, I always wanted to gain more skills in this field.

After my school journey, I started new and important chapter of my life in Engineering field. I Pursued my computer science and Engineering form S.N. Patel Institute of Technology, Surat. During my college life I developed skills like time management, team work, and networking. I developed many skills that made me industry ready.

After Completing my college journey, I got my first job in as an assistant system engineer in Tata Consultancy Services (TCS). TCS is India's top multinational company.

Apart from all this I like to do street photography and graphic designing. I also like to listen music and watch movies.
